

## About Us

Victims of Impaired Drivers is an Oklahoma-based, non-profit 501c3 organization composed of families that have experienced the devastating loss of a loved one due to the preventable crime of DUI. Our members also include extended family and friends of anyone affected by this crime, as well as experts in this area who wish to support our efforts.

**“If meaningful change is going to happen, it’s going to be led by the victims’ families.”**

VOID is a community of people who have endured tragedy at the hands of an impaired driver. We offer a safe space to interact with others who are on the same journey. We do not provide mental health services, grief counseling, or financial assistance.

VOID is not a religious organization, however many of our members are people of faith. We seek to raise awareness about the consequences of impaired driving, advocate for stricter laws and prevent future tragedies.
